2021-2022 Golden Stethoscope Nomination

Nominated for: Outstanding Clinical Reasoning

Name of Nominee Dr. Alexander Abramowicz

I am nominating Dr. Abramowicz for the Outstanding Clinical Reasoning Golden Stethoscope Award. Throughout this year he has spent ample time teaching me the foundations of clinical reasoning and building my oral presentation and physical exam skills. He deserves this award because he has consistently gone above and beyond to help me work through complex patient cases, have in depth discussions about pathophysiology and facilitate my curiosity for all things medicine. Dr. Abramowics has created many opportunities for me to interact with other members of the healthcare team and participate in resident rounds which has allowed me to observe different layers of clinical reasoning. I really appreciate the dedication and commitment he has shown to my education and highly recommend him for this award.
