

PREVENTIVE MEDICINE RESIDENCY

Evaluation Form

Printed on Mar 18, 2020

- Please return your completed evaluation form to: Jeanne.Rozzo@cuanschutz.edu
- Thank you for your feedback and for your investment of time with our Residents.

Clinical Site Rotations - Summative Evaluation

Evaluator: _____

Evaluation of: _____

Date: _____

For each item, select the appropriate column.

- 1: Cannot explain concepts or methods (i.e., has little or no knowledge of principles, concepts or methods needed to apply skill set).
 2: Can explain concepts or methods but cannot apply (i.e., can supply definitions or discuss protocols but even with detailed instructions and direct oversight has difficulty implementing skill set).
 3: Can apply at least in part with substantial guidance (i.e., can implement at least part of this skill set if given specific instructions for completing task and managing time and effort).
 4: Can apply in part with minimal guidance (i.e., can implement at least part of this skill set without receiving specific instructions; manages time and effort effectively to accomplish task).
 5: Can apply fully with minimal guidance (i.e., can implement this entire skill set without receiving specific instructions; takes responsibility for its implementation). Do not mark this level unless the resident has demonstrated ability to perform ALL skills listed within the item with minimal guidance.
 6: Leads projects or programs and/or acts as consultant to others. Residents will very rarely if ever achieve this level. This level should be reserved for the exceptional resident who demonstrates leadership or expertise at a level consistent with a (early career) preventive medicine / public health physician already in practice.
 N/A or N/O: Not applicable or not observed. Mark "Not applicable" if the site does not provide/has not provided any opportunity for the resident to meet the targeted benchmark.

You are encouraged to provide comments in the comments section at the end of this evaluation.

1. Accurately diagnoses and effectively manages common presentations of diseases / conditions relevant to site.*
