

How Does COVID-19 Affect the Aging Brain?

Research Study Investigates Aging, Memory and Immune Function

The University of Colorado Anschutz Medical Campus is looking for interested adults 60+ to participate in a research study examining how inflammation influences memory and thinking. This study is seeking older adults who have recovered from COVID-19 **AND** older adults who have never tested positive for COVID-19. Data gathered from this study will be used to better understand how inflammation and COVID-19 exposure impact brain health and aging outcomes.

Alzheimer's and
Cognition Center

UNIVERSITY OF COLORADO
ANSCHUTZ MEDICAL CAMPUS

Participation involves two research visits over the course of two years. Compensation provided.

Procedures Include:

- Memory and thinking tests
- Health history questionnaires
