# Requesting Funds

from Student Senate

## 01

Campus-wide and affiliated registered organizations are eligible to allocate money from the Student Senate. The Student Senate shall determine the amounts of funding available to any organization receiving funds.

## 02

Funding must be used to enhance educational and University experiences. Programs and/or activities that are open to the whole student body will have priority over those that are not.

Inappropriate uses of funds include credit given academic activities, personal items, and non-education or non-university natured.

# Professional Development Assistance

The Student Senate is reorienting the allocation of activity fees to fund University experiences. Because of this, projects like the Professional Development Assistance awards that historically reimbursed students for conference registration fees are no longer available. Funds will now be primarily disbursed to support educational events occurring at our University.
